

AUSTRALASIAN VASCULAR ANOMALIES NETWORK CONFERENCE**September 5th & 6th, 2025****QUEENSLAND CHILDREN'S HOSPITAL, BRISBANE**

Sponsored by:

**Friday 5th September**

0730-0800	Registration	Presenter
0800-0810	Official Opening	Frank Tracey and Prof Roy Kimble
0810-0820	Acknowledgement of country	Keriah Lake and Deon Murray
Session	Lymphatic Malformations/ Primary Lymphedema	Chairs: Dr Yun Phua, Samantha Hay
0820-0840	Mapping lymphatics of primary lymphedema	Dr Yun Phua
0840-0855	"Just put a little bit of compression on that"	Ms Jessica Shapland
0855-0905	Discussion- Management of Lymphedema	Prof Roy Kimble, and Ms Jessica Shapland
0905-0920	Management of neck lymphatic malformations with presentation of airway compromise: a case series	Dr Sarah Kolonko
0920-0935	Case presentation: Management of a right hindquarter complex congenital lymphatic malformation	Dr Aimee Gibson
0935-0950	Two case studies of lymphatic malformations diagnosed by a deep sequencing massively parallel (MPS) panel	Dr Rachel Stapleton
0950-1005	Intraabdominal lymphatic malformations: Are they all PIK3CA positive? A novel genetic hypothesis	Dr Carly Koefman
1005-1030	Morning tea	

Friday 5th September

Session	Haemangioma	Chairs: Dr Lauren Kunde, Kristen Storey
1030-1045	The Utility and Economic Model of Paediatric Vascular Anomalies Pre-Screening Multi-Disciplinary Clinics	Dr Kathryn Johnson
1045-1100	A novel three-dimensional model of Infantile Haemangioma	Dr Raka Mitra
1100-1115	Hepatic Haemangiomatosis with Consumptive Hypothyroidism in Neonates: A Mini Case Series	Dr Rachel Kelly
1115-1130	Treatment of Ulcerated Infantile Haemangiomas; a new algorithm	Dr Samantha Watson
1130-1145	Intra-tumour variation of metabolic, hormonal and immune signalling pathways involved in infantile haemangioma tumour progression	Imogen Skelton
1145-1200	Two neonates with undifferentiated sarcomas of the flank mimicking vascular tumours	Dr Rachel Cockburn
1200-1300	Lunch	
Session	Laser	Chairs: Prof Roy Kimble, Dr Maria Shilova
1300-1330	Laser therapy and vascular anomalies	Dr Phil Bekhor
1330-1430	Laser therapy Panel Discussion	Dr Phil Bekhor, Dr Lauren Kunde, A/Prof Anne Halbert, Dr Deshan Sebaratnam
1430-1500	Afternoon tea	
Session	Non- Operative Management of Vascular Anomalies	Chairs: Dr Melanie Jackson, Dr Jeremy Robertson
1500-1515	Trametinib for Kaposiform lymphangiomatosis	J. Lui
1515-1530	A short case presentation of two adult male patients with arteriovenous malformations responding well to low dose trametinib	Dr Rachael Foster
1530-1545	FAVA: A Case Series in a Paediatric Cohort	Dr Bianca Byfield
1545-1600	Physiotherapy trends in the management of contractures associated with Fibro-Adipose Vascular Anomalies (FAVA)	Miss Crystal Gambetta
1600-1615	Thalidomide for arteriovenous malformations (AVMs) in children	Lydia Pathmanathan and Rod Phillips
1615-1630	Characterisation and Risk Stratification of Kaposiform Haemangioendothelioma and Tufted Angioma: A Retrospective Case Series	Hannah Triscott
1630	Finish	
1800 onwards	Dinner- Lina Rooftop	

Saturday 6th September

0800	Welcome	Presenter
Session	Medical Trials	Prof Roy Kimble
0815-0835	Clinic trials	Dr Melanie Jackson and Dr Jeremy Robertson
0835	Surgical Session	Chairs: Dr Aimee Gibson, Dr Carly Fox
0835-0855	Title to be confirmed	Dr Hannah Burns
0855-0915	Limb deficiency- Title to be confirmed	Dr Geoff Donald
0915-0930	Crescentic partial excision and laser for residual infantile haemangioma	Dr Tony Pennington
0930-0945	Characteristics and surgical management of Verrucous Venous Malformations: A Retrospective Case Series	Ms Halah Hassan
0945-1000	The first five years using Biodegradable Temporising Matrix for vascular anomaly excision	Dr Maria Shilova
1000-1030	Morning tea	
Session	Interventional Radiology	Chairs: Dr Michael Guandalini, Dr Alexis Ford
1030-1050	AVM's	Dr Muddassir Rashid
1105-1120	Iatrogenic Arteriovenous Malformation secondary to sclerotherapy treatment for a lymphatic malformation	Dr Kiana Ronagh
1050-1105	First Experience of Bleomycin Electrosclerotherapy in Paediatric Vascular Malformations in New Zealand	Dr Raka Mitra
1120-1200	Case Study Panel discussion- Electrosclerotherapy	Dr Muddassir, Dr Brendan Buckley, Dr Martin Krauss
1200-1300	Lunch- AVAN committee meeting	
Session	Genetics	Chairs: Dr Romi Das Gupta, Dr Chris Richmond
1300-1315	Mainstreaming Genetic Testing in Vascular Anomalies: A Clinical Geneticist's Experience	Dr Chris Richmond
1315-1330	Genomics in the multidisciplinary team management of vascular anomalies – improving the diagnostic rate	Dr Rebecca Walsh
1330-1345	GNAopathies: The clinical diversity of GNAQ/GNA11 mutations	Assoc. Prof. Anne Halbert
1345-1400	Inhibiting SOX18 with propranolol restores vascular integrity in NR2F2-driven malformations	Matthew Graus
1400-1500	Case Report session- multiple case reports of interesting cases	Multiple presenters - Dr A. Didi Lesley-Pyke
1500	Finish
